

Proposed Fee Changes (Including Increases Greater than 5%)

FY2011

Detailed listing

This report contains details on proposed fee increases for FY2011, including those that are 5% or greater. The proposed increases are necessary to cover increased costs in the various programs. A public hearing is scheduled at 6 pm on Thursday, August 5, 2010 in the Council Chambers at City Hall, 911 North 7th Avenue, Pocatello, Idaho.

NOTICE OF FEE INCREASES

The City of Pocatello, Idaho proposes to increase selected annual fee revenue collections beginning October 1, 2010, in the departments listed below by amounts that may exceed one hundred and five percent (105%) of the respective fee revenue collections from the previous year (5% increase). The fee and program cost increases are due to the additional costs of administration, operations, and maintenance of the various programs.

About fees: Fee revenue either supplements tax revenues or provides the entire financial support for some services. With user fees, users of a service pay the costs, versus “non-users” (which pay via taxes). For example, we all pay taxes to support the fire department and we all benefit from it being trained and ready in case of emergency. But if a specific individual requests a special service, such as an inspection, then a fee is charged to the user. That way the user pays the extra cost of the extra service. Fees need to be periodically adjusted or else more of the burden falls unfairly on the general taxpayer. In the case of utilities (Sanitation, Water & Sewer), these business-type activities are 100% fee supported. No tax dollars are involved. The fees are reviewed by an outside consultant and designed to recover costs of providing the service. Fees need to be adjusted periodically to keep up with inflation or changes in the cost of providing the service.

Change Summary for FY2011. For FY11, the city proposes significant changes in utility rates. Sanitation rates are projected to increase by about 4% and the city also proposes a mid-year change to the normal residential service. Currently, residents purchase standard garbage service (“green cart”) and can elect to purchase curbside recycle service (“blue cart”) for an additional \$5.00 per month. Approximately April 1, 2011, the city proposes both to increase general sanitation fees another 2% to recover higher truck, steel, and fuel expenses but also to implement “enhanced service (“green and blue carts”). The \$5.00 voluntary charge would go away; everyone would have curbside recycle service. Water rates are proposed to increase by approximately 8% in most categories; sewer rates are proposed to increase by approximately 6%.

Details of each fee change are noted below.
